Trillervorübung.

Exercise preparatory to Trills.

Anmerkung: Trillervorübungen blase man nicht nur in der höheren Lage auf Sekundenintervallen, sondern versuche größere Intervalle wie angegeben gleichmäßig mit gut gespannter Lippe leicht zu binden. Der Erfolg ist überraschend.

Note: The pupil must not limit his preparatory exercises in Trills to practising (blowing) only in the higher Position. Intervals in Seconds, but should try to bind bigger Intervals evenly, smoothly with well and tight drawn lips and lightly. He will be astonished at the successful result.
